NOTE.—For the purposes of this table, subsidies or other sums received by any body from another have, as far as possible, been deducted from both revenue and expenditure. Thus, the revenue and expenditure of municipalities have been reduced by the amounts of the subsidies received from Government; those of the Fire Brigades Boards by the amount of the Government and municipal contributions; and those of the State Government by the amounts received from the Federal Government as Commonwealth surplus revenue, and from the Board of Works as interest on Government loans for which the Board has become liable.

* The financial year of both the Federal and State Governments and of the Melbourne and Metropolitan Board of Works ends on 30th June; that of Melbourne on 31st December; that of Geelong on 31st August; that of all other municipalities on 30th September; and that of the Harbor Trusts and the Fire Brigades Boards on 31st December.

NOTE.—The figures for the first nine years may, for statistical purposes, be regarded as final; those for the last year—which have been revised to 31st Dec., 1913—will be liable to future correction. It should be stated, however, that there is no finality to the changes which may occur for back years in the Income Tax Registers, but such changes will not materially affect the above results. The Income Tax was imposed by Act 58 Vict. No. 1374, passed on the 29th January, 1895, and Regulations framed thereunder, dated the 14th March, 1895, and is levied on incomes earned after deducting all outgoings and expenses incurred in the production of income, an exemption of £200 being allowed until 1903, except in the case of absentees. For the five years 1903, 1904, 1905, 1906, and 1907 the exemption was reduced to £100, allowed to both resident and non-resident taxpayers, except companies, on incomes between £126 and £500 in 1903, between £151 and £500 in 1904, between £157 and £500 in 1905 and 1906, and between £201 and £500 in 1907. **For 1908, 1909, 1910, 1911, 1912, and 1913 the exemption was £150 on incomes between £201 and £500, except companies; and in addition for the years 1908, 1909, and 1910 a rebate of 20 per cent. on assessments was allowed to all taxpayers except companies.** The rates of tax applied to incomes of £201 and upwards for the year 1912–13, were as follows:—

Taxable Amount—	Rate of Tax on Incomes derived from— Personal Exertion.	The Produce of Property.
First £500	3d. in £1	.. 6d. in £1
Next £500	4d. in £1	.. 8d. in £1
Next £500	5d. in £1	.. 10d. in £1
Above £1,500	6d. in £1	.. 12d. in £1

The basis of taxation in the case of Life Assurance Companies is 8d. in the £1 on 30 per cent. of the premium income, for Industrial Assurance Companies it is 8d. in the £1 on 15 per cent. of the premium income, for Mining Companies it is 7d. in the £1 on (*a*) the gross amount of dividends declared and (*b*) the gross amount of debenture interest paid, and for other companies it is 7d. in the £1 on the taxable income.

* Taxpayers entitled to exemption shown in brackets.

NOTES.—(1) Annual allowances in addition to pensions are sometimes granted, and hence the total number of pensioners is fewer than that of pensions. This happens chiefly in the Railway Department where extra allowances were voted as follow:—104 for £776 in 1903-4, 97 for £671 in 1904-5, 79 for £513 in 1905-6, 84 for £606 in 1906-7, 85 for £630 in 1907-8, 87 for £625 in 1908-9, 88 for £695 in 1909-1910, 93 for £828 in 1910-11, 92 for £842 in 1911-12, and 74 for £771 in 1912-13.

(2) Police and Pilot pensions are not included, being payable out of special funds. The endowment payable out of the General Revenue to the Police Superannuation Fund, under Act 54 Vict. No. 1127, is £2,000 per annum; but in addition to this the following amounts in aid have been paid out of Votes in the years named:—£40,000 in 1903-4, £42,000 in 1904-5, £40,000 in 1905-6, £36,000 in 1906-7, £21,268 in 1907-8, £23,700 in 1908-9, £26,625 in 1909-10, £28,700 in 1910-11, £27,000 in 1911-12, and £15,000 in 1912-13. No Government contribution is made to the Port Phillip Pilot Sick and Superannuation Fund. For number and amount of Police and Pilot pensions, see page 38 *post*.

* Including pensions under Victorian Railways Commissioners Act.——† Subject to sanction of Parliament.——‡ Exclusive of payments to Police Superannuation Fund referred to in note 2 *supra*.

NOTE.—Pensions and gratuities to the police are payable under the Police Regulation Act (54 Vict. No. 1127) out of a fund called the Police Superannuation Fund. This fund is maintained by an endowment from the consolidated revenue, by a moiety of fines inflicted by the courts of petty sessions, by a deduction not exceeding 2½ per cent. from the pay of members of the force entitled to pensions, by transfers from the Licensing Fund under Act No. 2068, and, when the foregoing sources are insufficient, by further grants in aid from the consolidated revenue. In 1912-13, the ordinary receipts were as follow:—Government endowment, £2,000; fines, £4,635; deductions from pay (at 2½ per cent.), £4,774; transfer from Licensing Fund, £24,089; Government subsidy voted to supplement endowment, £15,000; total, £50.498. The balance at the credit of the fund on the 1st July, 1912, was £12,132; and on the 30th June, 1913, £8,762. During the past twenty-six years it has been necessary to vote £600,184 (exclusive of endowment and of £111,763 transferred from the Licensing Fund) in aid of the fund, or an average of £23,084 per annum.

* The financial years of Melbourne and Geelong end on the 31st December and the 31st August respectively ; that of all other municipalities on the 30th September.——† In addition, the following rates were levied in the following municipalities :—Sanitary rates in Bendigo of 5d. in the £1, in Castlemaine of 6d. in the £1, in Eaglehawk of 5d. in the £1, in Echuca of 4d. in the £1, in Rutherglen of 3d. in the £1, and in Ballarat, Buninyong, Clunes, Creswick, Maryborough, Talbot, and Wangaratta of 15s., 15s., 16s., 16s., 14s., 20s., and 18s. per pan respectively ; Water rates in Ballarat, Sale, and Wangaratta of 1s., 1s. 6d. and 1s. in the £1 respectively; Lighting rates in Geelong and Melbourne, of 2d. and 3d. in the £1 respectively; and improvement rates of 2s 6d. in the £1 and 3s. in the £1 in Northcote. It must not, however, be inferred that similar rates were not levied in other municipalities, as many of them furnished no particulars respecting the rates levied in addition to the general rates.——‡ The area comprised in the Statistical District of Greater Melbourne embraces a radius of 10 miles from the General Post Office. For particulars as to the shires which are either wholly or partly comprised within that radius, see foot-notes † and ‡ on page 9 *post.*——§ Camberwell was declared a city on the 20th April, 1914.——‖ Northcote was declared a city on the 30th March, 1914.

NOTE.—In 1913 the deaths in all the principal public institutions—including, besides those enumerated above, gaols and penal establishments, industrial schools, orphanages, female refuges, &c.—numbered 2,737, particulars of which will be found in various portions of the *Statistical Register*. The total, 2,737, includes 73 deaths in the Heatherton Sanatorium. The numbers given are those of deaths *registered* during each year, and consequently may not agree exactly with those which actually occurred in the institutions during the same period.

* Partly in South Melbourne City.

† The Benevolent Asylum is now situated at Cheltenham, which is outside the city 10-mile radius, but the deaths therein—175 in 1911, 187 in 1912, and 172 in 1913—are regarded as occurring within the metropolitan area.

* In addition to the new cases of individuals as stated above, there were 25 investigations on behalf of kindred societies or institutions that are not classified above; 286 old or recurrent cases also necessitated re-investigation; and 263 other old cases, which did not require actual re-investigation, but had to be dealt with in one way or another during the year.

† Including the Society's Administration, Trust, and Relief Funds.

NOTE.—This Society does not primarily aim at distributing alms from its own funds, but ascertains by investigation whether applicants for relief are "helpable," and, if so, how adequate assistance can be most wisely rendered, thereby assuring charitably disposed people that their contributions are being properly bestowed. It maintains a woodyard as a labour test, so that the means of earning food and shelter shall be open to men able and willing to work. It strives to induce co-operation between the charities, the recognition of the necessity of organization in the work of charitable institutions, and the compilation of records of value to the sociologist and philanthropist. It also strives to create a centre of intelligence bearing on charitable work generally.

*Including Chinese, also Aborigines from 1851 to 1901; in 1911 full-blooded Aborigines numbering 103 males and 93 females have been excluded from the figures in these three columns, but are included under the heading "Aborigines."

† Officially estimated; but according to other and apparently more reliable estimates made by private persons the Aborigines numbered not less than 15,000 when the colony was founded in 1836.

‡ Partly estimated.

NOTE.—Under the provisions of the *Electoral Act* 1910, Rolls of Ratepayers and Non-ratepayers for the Legislative Assembly were abolished. The printed annual or Special General Rolls contain the names of resident electors only. The *Electoral Act* 1910 makes provision for continuous enrolment for the Legislative Assembly, and names are added to the Registrars' Official Rolls during the currency of such Rolls. Persons possessing a property qualification must make claim for enrolment within three months after the coming into force of the printed Rolls. In the event of an election, a list of names added to the Roll since printing (including property holders, if any) up to and inclusive of a day being thirty days before a vacancy or dissolution is printed for use at such election.

NOTE.—The figures in this table, which have been furnished each year by the Registrar-General, do not express the full amounts secured and released in each year, the reason being that the amounts are frequently not set forth in the registered documents, especially in regard to live stock, wool, and crops released, in which cases, although the mortgages or liens may have been paid off, the mortgagors seldom take the trouble to have the releases registered, as the securities relating to wool and crops lapse after the expiration of twelve months from the date of same.

* The following mortgages are not included:—Building Society mortgages which are registered as absolute transfers and regarded as such by the Titles Office; and equitable mortgages to banks and individuals by deposit of title-deeds chiefly for temporary advances, of which there is no public record. The Releases are also deficient, inasmuch as a mortgage is very often discharged in other ways, *e.g.*, the mortgagee sells under his power of sale on default, or the mortgagor transfers the property to the mortgagee in satisfaction, or the mortgagee forecloses.

† Of these numbers 1,286 in 1904, 1,095 in 1905, 624 in 1906, 174 in 1907, 208 in 1908, 19 in 1909, 60 in 1910, 45 in 1911, 21 in 1912, and 119 in 1913, were liens to the Board of Land and Works under the *Seed Advances Act* 1903.

NOTE.—Pastoral and grazing area leases are granted for any term of years expiring not later than 29th December, 1920; whilst grazing licences are only of a temporary character (renewable annually), and are only granted for waste lands of the Crown till required under the principal sections of the Act. The Mallee leases, as the name indicates, are confined to the Mallee country, in the North-Western portion of the State, which was formerly dealt with under a special Act—the Mallee Pastoral Leases Act, the clauses of which were subsequently embodied in the Land Act 1890. The lessees of grazing areas have the privilege of selecting (*i.e.*, purchasing under the deferred payment system on certain conditions) an area not exceeding 200 acres first class, 320 acres second class, or 640 acres third class according to the classification of the land out of their lease for agricultural or grazing purposes; and lessees of Mallee allotments have a like privilege of selecting out of their lease 640 acres first class, 1,000 acres second class, or 1,280 acres third class, according to classification of the land.

The total area of leases issued during the year 1913 was 556,456 acres.

* There is no record of the produce for the three years prior to 1839 —— † In 1863-4, 1864-5, and 1878-9 the yield of wheat was much affected by "rust."——‡ The tobacco crop in 1875-6, 1879-80, 1890-91, 1892-3, 1898-9, 1900-1, and 1901-2 failed in most parts of the State. The figures for 1913-14 are not available.——§ Exclusive of Sugar Beet. See "Minor Crops," pages 86 and 87.

* As only part of the potato crop, viz., 7,704 acres, had been dug when the statistics were collected, an estimate has been made of the remainder of the yield, based on averages deduced from actual information received in response to cards, from the principal growers in each county. The average of the 7,704 acres dug prior to the general collection of the statistics was 3·52 tons per acre ; and that of 31,124 acres, returned by principal growers after such collection, was 2·24 tons per acre, giving a general average for the whole season of 2·37 tons per acre. Hence the estimate of the total produce is based on the average yield of 38,828 acres—or more than one-half of the whole area.

† Of the grapes gathered the estimated quantity used for making wine was 161,105 cwt.; for making raisins, sultanas, and currants, 618,412 cwt.; and for table consumption and export, 56,976 cwt.

‡ Used in the manufacture of spirit.

§ 652 tons of undressed flaxen straw grown in 1913–14 was reported to be awaiting treatment.

* For statistical purposes the municipalities within each district are arranged as nearly as possible in geographical order. Municipalities that overlap the boundaries of districts are considered in those districts wherein the principal portions are situated.

† In 1913–14, wheat was grown on 19,529 holdings, as compared with 18,737 in 1912–13.

‡ This includes land over which imported grass, clover, &c., have spread without cultivation; and scrub land on which grass has been sown after burning.

§ The number of hands ordinarily employed on any holding includes the occupier or manager, and those members of his family who actually work on it; but persons absent from their farms for the greater portion of the year following other occupations, as well as temporary hands—engaged harvesting, &c.—are not included, neither are domestic servants or cooks.

† As only a part of the potato crop, viz., 7,704 acres, had been dug when the statistics were collected, an estimate has been made of the remainder of the yield, based on averages deduced from actual information received in response to cards from the principal growers. The average of the 7,704 acres, dug prior to the general collection of the statistics was 3·52 tons per acre; and that of 31,124 acres, returned by principal growers after such collection was 2·24 tons per acre, giving a general average for the whole season of 2·37 tons per acre. Hence the estimate of the total produce is based on the average yield of 38,828 acres—or more than one-half of the whole area.

NOTE.—The items in this Table do not represent the whole area under the respective crops grown, but only of such as were taken cognisance of by the collectors. The minor crops are often raised in gardens, in which case the various descriptions would not be distinguished. They may be also grown upon allotments of less than one acre in extent, and these the collectors are not called upon to visit. The Table must, therefore, be looked upon as indicating the nature of certain crops grown in Victoria rather than the full extent to which those crops are cultivated.

NOTE.—The minting value of standard gold (·91667 fine) is £3 17s. 10½d. per oz., and of fine gold £4 4s. 11$\frac{5}{11}$d. per oz.; but the actual price paid for the latter at the Melbourne Mint is only about £4 4s. 10d. The gold received at the Melbourne Mint during 1913 was above the standard. Its fineness was ·9312.

* Reckoned at £4 per oz. of crude gold, up to the end of 1900; but in each year since, the value is based on the average value of Victorian gold received at the Mint.

MANUFACTORIES, 1913.

The Classification of Industries and the Definition of a Factory, agreed to at the Conference of Statisticians held at Hobart, Tasmania, in January, 1902, have been adopted in these tables. The following is the definition of a Factory :—" All establishments employing, on the average, four hands or upwards, also those with less than four hands, where machinery is worked by power other than manual, whether the business carried on is that of making or repairing for the trade (wholesale or retail), or for export."

Where two or more industries are carried on by one proprietor in one building, each industry is, where possible, treated as a separate establishment.

NOTE.—Where the number of factories is braced the information has been combined in order to conceal the contents of individual schedules. The figures in parentheses indicate engines worked in conjunction with those of a different description.

* The figures in this column apply to purchased land only. Three hundred and thirty-five establishments (including forty-eight cyanide works) were carried on upon Crown lands; in these cases no valuation of the land has been given.

† Nailmaking is also carried on in conjunction with wireworking and saw and moulding mills. Creameries are not counted as separate establishments, but are regarded merely as branches of butter factories. The number of hands employed in creameries was 77 males. ‡ Factory workers working at their own homes. ‖ Including one Pintsch gas works.

§ Of the total wages paid, males received £8,925,814, and females £1,788,522. This is equal to a yearly average for the former of £118 18s. 9d., and for the latter of £47 0s. 1d., or, assuming that 52 weeks were worked, an average per week of £2 5s. 9d. for males and of 18s. 1d. for females.

NOTE.—The estimates of population from 1901 to 1910 have been revised and altered to accord with the final figures of the Census, 1911.

* The births and deaths given for 1853 are all of which there is any record; but it is known that the figures are considerably short of the truth, and it is supposed that in each case the real number was not less than 5,000. The deficiency has arisen chiefly from the fact that the system of registering births and deaths was entirely changed during the year 1853, and the new system was not at first properly understood. In consequence of this, and also owing to the unsettled state of the gold-field population, it is known that many children born were neither baptized nor registered, and many persons who died were buried without registration or funeral service.

NOTE.—In addition to the amounts included under the heading "Loan Expenditure by Government," a sum of £16,775 was expended from 1859 to 1865 on Melbourne Water Supply, which cannot be allocated to the separate years.

* Prior to 1871 the expenditure was for the year ended 31st December. The figures for 1871 relate to the first six months only. Since that date they have been for the year ended 30th June—except as regards the Railway expenditure for 1876, which is for the eighteen months ended 31st December, and that for the years 1877 to 1884, which are for the twelve months ended 31st December; also as regards Country Waterworks expenditure, which for all the years prior to 1885 is for the years ended 31st December. The figures do not in any case include amounts expended by municipal governments.

† Including purchase money of the late Melbourne and Hobson's Bay Railway Company's lines.

‡ **Exclusive of Treasury Bonds in aid of Revenue, and of £2,389,123 available in 1893 for the redemption of loans about to fall due.**

NOTE.—Until 1879 the figures did not give particulars of all the Friendly Societies in the State, but only of such as furnished returns. For that and subsequent years the returns are complete.

* Post Office Savings Banks were first opened in 1865; hence the increase in the number of banks from that year. The returns for the Post Office Savings Banks are for the years ended 31st December; those for the Trustee Savings Bank are for the years ended 30th June. They were merged into one institution on 1st October, 1897.

* Including in all years wool imported into Victoria across the Murray. This amounted to 50,656,138 lbs., valued at £2,235,193, in 1909.

† The quantities of flour, bread, and biscuit exported are reduced to their equivalent in bushels of wheat.

‡ Since 1909 the information is not available, owing to the Federal Government having abandoned the collecting and recording of Inter State imports and exports from 13th September, 1910.

* Post cards were first issued in April, 1876. They are included with letters in this column.

† For the first time telegrams on Railway service were not included.

‡ The increase in the number of telegrams in 1870 and 1885 was consequent on a reduction in the rates.

§ Telephone system taken over by the Post Office on 22nd September, 1887. Previously worked as a private undertaking.

NOTE.—In addition to the quantity of land sold and amount realized within the year, the figures under the head "Crown Land Sales" represent during each of the years after 1868 the total extent of, and the amount paid on, lands purchased under deferred payments of which the payments were completed within the year, although such payments had extended over a series of years. The extent selected, of which the purchase had not been completed, is not included in the area sold. This amounted, at the end of 1913, to 7,137,413 acres. The figures for 1894 include 12,221 acres disposed of to Messrs. Chaffey Bros. in previous years for £1 per acre, which area and amount were not previously taken into account. The figures for 1895 include 11,584 acres granted without purchase to Messrs. Chaffey Bros.; but except for this lands granted without purchase, which amounted, up to the end of 1913, to 126,405 acres (including 50,000 granted to Messrs. Chaffey Bros.), are excluded.

* From the beginning of 1894 the produce of stone quarries has been included in the value of mineral production.

THIRTY-SIXTH ANNUAL REPORT.

REPORT OF THE GOVERNMENT STATIST FOR THE YEAR ENDING 31ST DECEMBER, 1913.

In accordance with the provisions of the *Friendly Societies Act* 1890 (54 Vict. No. 1094, Sec. 10), and the *Government Statist Act* 1908 (8 Edw. VII., No. 2148, Sec. 5), the Government Statist submits to the Minister for presentation to Parliament a Report of his proceedings, of the principal business transacted by him in connexion with Friendly Societies during the year 1913, and of the valuations of societies effected.

ANNUAL PROCEEDINGS.

Acts No. 1094, 1252.
Return A.
Return B.

Registered Friendly Societies are required by law to furnish to the Government Statist, prior to the 1st February in each year, a general statement of their recepts, expenditure, and funds, together with copies of their quarterly or half-yearly balaince sheets and a list of the members, with sickness, mortality, and other contingencies experienced during the year. Societies are also required to have periodic valuations of their liabilities and assets made once at least in every five years.

These provisions entail upon this branch the duty of closely examining the returns for the purpose of noting compliance or otherwise with the Statute and the Societies' laws, and of compiling Friendly Societies' Statistics and making valuations annually in successive quinquennial groups. The staff is fully occupied with the heavy amount of detail work necessarily connected therewith.

GROWTH OF VICTORIAN FRIENDLY SOCIETIES.

The following statement shows the growth of friendly societies during the last thirty years at quinquennial intervals :—

Year.	Societies.	Branches.	Number of Members.	Annual Income.	Total Funds.	Funds per Member.		
				£	£	£	s.	d.
1883 ...	38	776	57,502	211,153	538,461	9	7	4
1888 ...	33	930	78,656	281,928	768,251	9	14	4
1893 ...	33	1,064	82,004	307,009	1,048,744	12	15	10
1898 ...	32	1,102	89,469	327,555	1,221,210	13	13	0
1903 ...	26	1,236	105,856	389,679	1,481,730	13	19	11
1908 ...	42	1,422	130,048	481,197	1,887,891	14	10	4
1913 ...	47	1,501	157,280	606,785	2,490,957	15	16	9

It will be seen that there has been a steady increase in the funds and that good numerical progress has been made during the thirty years. The growth of the societies both financial and numerical has been especially marked during the last ten years, and has been due mainly to the favorable conditions which have prevailed. Between the ends of the years 1903 and 1913 the membership increased by 51,424, the annual income by £217,106, and the total funds by £1,009,227.

At the close of 1913 there were in existence eleven female societies, having a membership of 12,007, and total funds of £41,346. Ten of these were associated with male societies.

In order to illustrate the rate of growth of the male societies, I append a table comparing the rate of increase in the membership with the rate of growth of the male population at ages 16 years and upwards. Columns have been added to this table reducing the numbers at the several dates so as to make them correspond with a basis of 100 in the first year. From these columns it will be seen at a glance that the membership of male friendly societies has increased during the past thirty years at a much greater rate than the standard selected for comparison.

VICTORIAN AND BRITISH FRIENDLY SOCIETIES COMPARED.

The subjoined table contains a statement of the membership, income, funds, and funds per member of Victorian and British Societies respectively, for the latest years for which the information is available. The estimated populations of the two countries at the ends of these years are also given.

Country.	Year.	Estimated Population.	Membership.	Annual Income.	Funds.	
					Total.	Per Member.
				£	£	£ s. d.
Great Britain and	1910	45,100,160	6,710,383	9,106,154	50,337,123	7 10 0
Ireland	1911	45,479,880	6,774,017	...	51,858,568	7 13 1
Victoria	1913	1,412,119	157,280	606,785	2,490,957	15 16 9

The membership in Victoria at the end of last year was smaller in proportion to population than in Britain, but the ratios to population of annual income and total funds were greater in this State, while the funds, per member, in Victoria exceeded by over 100 per cent. the proportionate funds held in Great Britain. The higher proportions in Victoria are due to the larger benefits given by the societies, and the greater relative reserves which must be held by them in consequence as a provision for future liabilities.

FRIENDLY SOCIETIES ACTS AMENDMENT ACT 1914.

This Act, which appears as Appendix D to this Report, provides facilities for a friendly society dealing with any surplus which may be disclosed on an actuarial valuation being made of its assets and liabilities, and gives power to the Governor in Council to appoint some one to perform the duties of the Government Statist in relation to friendly societies during the temporary absence of the latter from his ordinary duties.

Actuarial valuations made in recent years have shown that several of the larger friendly societies have a surplus of assets over liabilities, and it is likely that this feature will become more prominent in future valuations. A society having a surplus is usually desirous of utilizing it for the benefit of the general body of members. The Friendly Societies Acts did not, however, contain any provision for its disposal. Section 17 of the *Friendly Societies Act* 1890 allowed of the accumulation for the use of any member of the surplus of contributions received from him after providing for liabilities and permitted such accumulations to be withdrawn from time to time. It is evident from text books on the subject that this section was intended to refer to deposit societies. It might also have applied to the surplus of an ordinary society, but this is doubtful, and if such a society dealt with a surplus under its authority there was a danger that its action might be held illegal by a Court.

It will now be possible to utilize with the consent of the Government Statist a surplus in one of the benefit funds of a society for the purposes of the same or any other fund or benefit. Thus an actuarial surplus in the Sick and Funeral Fund may be used for the purposes of that fund or transferred to the Medical and Management Fund or some other fund established in accordance with the rules of the society.

The consent of the Government Statist is necessary, chiefly because the surplus available for distribution may be less than the amount shown in the report on his valuation. The reason of this is that the valuation surplus is dependent on the properties and other assets being found on examination to be of equal value to the amounts at which they appear in the society's books. It is necessary before authorizing the allotment of a surplus that the Government Statist should ascertain whether the value of the assets as furnished to him is correct, and, if not, what deduction should be made from them. It may be desirable for other reasons that a portion at least of the surplus relating to a particular fund should remain intact in that fund.

Section 3 repeals section 17 of the 1890 Act. This has been done because its inclusion in the Friendly Societies Acts, along with section 2 of the Act of 1914, might lead to difficulty in the interpretation of these sections. Societies have in some instances passed rules in accordance with section 17 of the 1890 Act, and it is desirable that any advantage secured by these rules should be retained. As has been mentioned, section 17 of the 1890 Act was evidently intended to apply to deposit societies, and there are none of such societies in Victoria.

FAILURE TO FURNISH RETURNS FOR THE YEAR 1913.

Societies Prosecuted.

Section 14 (1) (*d*) of the *Friendly Societies Act* 1890 provides that every registered society shall once in every year before the first day of February send to the Government Statist returns containing financial, numerical, and other particulars for the year ending in the month of December in the previous year.

A large amount of work is imposed on this office each year through its having to remind societies and branches of their failure to comply with the Act in this respect.

The responsibility of furnishing the returns rests with the central body of a society and the rules of societies provide for the imposing of penalties upon branches which fail to furnish the returns by a specified date. It appears, therefore, that the failure to send returns to the Government Statist by the statutory date is due mainly to lax management on the part of the central body.

The penalty under the Act for failing to send returns is not less than £1 nor more than £10. At the Court of Petty Sessions, Melbourne, on the 24th July last, the first prosecutions under the above-mentioned section were dealt with, when the following were charged with failure to furnish returns for the year 1913:—

Protestant Alliance Friendly Society, and Mr. John Callaghan, its Grand Secretary.

Hibernian Australasian Catholic Benefit Society, and Mr. J. W. Ryan, its District Secretary.

United Ancient Order of Druids.

Mr. J. W. K. Freeman, who appeared on behalf of the Crown, stated that considerable correspondence took place each year between the Crown Law Department and friendly societies owing to the failure of the latter to forward the statutory returns. The Hon. the Attorney-General had instructed that proceedings should in future be taken against offending societies.

The decisions were as follows:—

P.A.F.S., fined £2, with costs £3 3s.
H.A.C.B.S., fined £2, with costs £3 3s.
U.A.O.D., fined £1. with costs £3 3s.
John Callaghan, fined £1.
J. W. Ryan, fined £1.

OVERPAYMENTS OF SICK PAY.

When the records of this office are being written up each year it is frequently noticed that members are paid sickness benefits at the various rates of pay for longer periods than those to which they are entitled under the rules of the societies. The attention of the secretaries concerned is immediately called through the executive bodies to the overpayments, and explanations are requested. Undertakings are generally given that steps will be taken to obtain a refund of the amounts overpaid. During the year 1913 the largest overpayment to a member which came under notice was an amount of £7 13s. 4d. It would appear from these overpayments that the work of examination of the books and documents of branches by the auditors is in many cases done in a perfunctory manner and that in a number of societies there is no proper system of keeping records of sickness benefits paid to members.

As the result of a query from this office with regard to the amount of sick pay paid during the year 1913 to a member of a branch of one of the largest societies, the fact was disclosed that in that society, which has over 200 branches, there was no prescribed method of recording the dates of declaration on and off the Sick Fund by members and other particulars in connexion with sickness payments.

It would be as well to point out that the contributions paid by members to the Sick Fund provide only for the payment of the sickness benefits under the provisions contained in the rules of a society, and that amounts overpaid must consequently prejudicially affect its financial condition.

The following is a copy of the form prescribed by the central body of one of the leading societies for all its branches for keeping records of sickness and sick pay, and it appears to be suitable for the requirements of all societies:—

INFORMATION REQUIRED FOR QUINQUENNIAL VALUATIONS, SECTION 14 (1) (*e*), FRIENDLY SOCIETIES ACT 1890.

The special attention of societies is called to the sub-section quoted above. This sub-section makes it mandatory on every registered society to have a valuation made once at least in every five years and when the valuation is to be made by the Government Statist directs the society to "send to the Government Statist a return of the benefits assured and contributions receivable from all the members of the society and of all its funds and effects debts and credits accompanied by such evidence in support thereof as the Government Statist may prescribe." In other words, the sub-section provides that the society shall supply all the particulars necessary for the making of a complete valuation of its assets and liabilities.

Notwithstanding the provisions in the Act much difficulty is experienced by this office in obtaining the necessary information from some of the branches of the societies. In fairness to the majority of the branches it must be stated that the difficulty alluded to relates only to a relatively small though, unfortunately, an increasing percentage of the total number of branches. Three or four applications have been found necessary before the information is obtained, and in one case this year a branch secretary carried the matter so far that it was not until legal proceedings were threatened that the particulars were furnished by him. As this causes much delay in the completion of valuations and gives the staff a great amount of work which should be unnecessary, I would point out that the Act, and also in most cases the registered rules, place the onus of supplying the information referred to on the central body. It would be well, therefore, for the managing bodies of societies to direct the secretaries of the branches to supply all the particulars asked for without unnecessary trouble.

INVESTMENTS.

The following statement shows the nature of the securities in which the Sick and Funeral Funds of all the societies were invested at 31st December, 1912 and 1913 :—

Nature of Security.	1912.		1913.	
	Amount Invested.	Proportion to Total Funds.	Amount Invested.	Proportion to Total Funds.
	£	%	£	%
Mortgages	1,158,842	53	1,230,496	53

Cash not bearing interest	59,927	3	67,961	3
Improperly in use by other funds	6,165	(·3)	6,511	(·3)

*£7,500 of this amount was transferred to Medical and Management Funds during the year 1913.

It will be observed that the sums invested in the different forms of security remained proportionately the same in 1913 as in 1912. The capital of the Sick and Funeral Funds increased in 1913 by £131,447, and the amount invested from these funds in the Victorian Government Special Inscribed Stock during the year was only £24,161. It is surprising that a much larger sum was not placed in this security, which was created solely for the purpose of providing friendly societies with a form of investment that combined absolute safety with a comparatively high rate of interest. The investments from the Sick and Funeral Funds in the Stock in 1912 amounted to £121,010.

VICTORIAN GOVERNMENT SPECIAL INSCRIBED STOCK ACT 1910.

A statement of the principal provisions of the above Act, which was passed for the benefit of friendly societies, and which came into operation on 4th January, 1911, was published in the Report on Friendly Societies for the year 1910. The subjoined table shows the investments from all funds in the Special Stock created by the Act at the end of 1913, the societies being arranged in order of the amount invested:—

Society.	Capital invested in Special Stock at the end of 1913.

The amount invested in the Stock increased from £315,112 at the end of 1912 to £338,779 at the end of 1913.

With regard to the larger societies, it will be noticed that the P.A.F.S. and the O.S.T. had not at the end of 1913 placed any portion of their capital in this form of security.

INTEREST RETURNS.

The average rate of interest earned on the total Sick and Funeral Funds of Male and Female societies during 1913 was 4·21 per cent. as compared with 4·18 per cent. in the previous year. In the following table are shown the rates of interest realized on the Sick and Funeral Funds during the years 1912 and 1913 by societies having over £10,000 to the credit of these funds at the end of the latter year:—

Society.	Amount of Sick and Funeral Funds at the end of 1913.	Rate of interest earned.

S.P.S.	21,762	3·70	3·48
I.N.F.	22,349	4·30	4·58

It will be seen from the foregoing table that the interest rates during the years 1912 and 1913 were satisfactory in the larger societies with two exceptions. The exceptions were the V.R.M.B.S. and the S.P.S., and, although the rate obtained by each of these societies was low, in the former of them it showed a steady improvement during the three years 1910-12. Under present conditions it should be possible for all the larger societies to obtain a rate of at least 4 per cent. per annum.

The great importance of the regular collection of interest and the close investment of the funds at the highest possible rate consistent with safety should be clearly brought under the notice of branch trustees by the central bodies, for it is to a large extent on the nature of the interest returns that the adequacy of the contributions of members depends.

AUDIT OF ACCOUNTS.

The Government Statist has no statutory authority to examine and audit the books of a society, and he has to rely to a great extent on the auditors appointed by the societies seeing that the returns furnished to him are correct.

AUDIT SYSTEM IN QUEENSLAND.

In Queensland an Act to consolidate and amend the law relating to friendly societies was assented to on 29th October, 1913. By section 21 thereof every society or branch is required to submit, at least once in every year, its accounts and securities for audit to a licensed auditor, or to such two or more auditors as the society or branch in accordance with its rules appoints; or

If no such appointment is made; or

If the Registrar is dissatisfied with the manner in which such audit is made or with the annual return; or

If the duly audited annual return is not delivered at the Registrar's office on or before the first day of March;

to a licensed auditor appointed by the Registrar or to some other auditor or auditors so appointed.

In the case of a branch, the Registrar must first notify the central body that the annual return has not been received, or, if received, that he is dissatisfied with the audit or return, and that he will exercise his powers under this section unless a satisfactory return is received within thirty days after such notice.

The cost of an audit pursuant to appointment by the Registrar must be paid by the society or branch concerned, and in default of payment may be recovered as a debt by the auditor so appointed.

The auditor or auditors—

(*a*) Shall have access to all books, papers, deeds, documents, and accounts; and

(*b*) Shall examine the general statement of the receipts and expenditure, funds, securities, and effects, and verify the same with a banker's certificate (which certificate they are empowered to obtain) and the accounts and vouchers relating thereto, and by examining the securities held; and

(*c*) Shall either sign the same as found to be correct, duly vouched and in accordance with law, or specially report to the society or branch in what respect the same are found to be incorrect, unvouched, or not in accordance with law.

If auditors who are not licensed auditors are appointed by the society or branch, one of them at least shall retire in each year, and shall not be eligible for re-appointment for a period of twelve months thereafter.

INSPECTION SYSTEM IN NEW SOUTH WALES.

The Friendly Societies Act in New South Wales provides for the appointment of inspectors of accounts. A system of inspection is in complete working order in that State, and the Registrar reports that it is of great value in guarding against fraud and loss and in educating the officials in safe economic administration.

Among the advantages which have accrued from the system in New South Wales are the following :—

It helps to bring in returns promptly. In Victoria there is frequently much difficulty in obtaining these, and the publication of the annual report on Friendly Societies is consequently delayed.

It is of great assistance in the examination of returns. The inspectors are able to get direct access to office books, returns, &c., and to clear up difficulties without having the trouble of carrying on a correspondence in regard to them.

The inspector makes an examination of the securities.

He can give information at law if there is a suspicion of embezzlement.

The Registrar has power to demand books and to examine them in detail.

One at least of the Victorian societies has a permanent inspector, but even if there were such an officer in every society there would still be need for a Government inspector. An officer appointed by a society to inspect its accounts is responsible to the managing body, and, however competent he may be, it is not to be expected that he will exercise the same freedom in reporting on the society's affairs as an independent Government official would do.

Moreover, experience in New South Wales has shown that, while some care is taken to detect and to prevent fraudulent appropriation on the part of officials, no thorough examination is made of the allocation of either receipts or disbursements. The former are frequently applied to other purposes than those for which they were contributed. In this respect the executive bodies have been the worst offenders, and in their cases inspection would be of very little use unless conducted by an independent officer.

NEW MEMBERS.

The subjoined statement shows the number of initiations which have taken place in the last five years in male societies which have a membership of 500 or over. The societies have been arranged in the order of their numerical strength at the end of 1913:—

* Registered in 1908.

In all societies initiations fluctuated during the quinquennial period under review. With regard to the actual number of initiations, it will be noticed that the two leading positions were occupied during the five years by the A.N.A. and the M.U.I O.O.F.; also, that the U A O.D. held the third position in 1910, 1911, and 1912, but was displaced by the I.O.R. in the other two years of the quinquennium. In some of the smaller societies the initiations, though not so large numerically, were greater proportionately to the number of members at the beginning of the year than in the cases mentioned. A comparison with the year 1912 shows that in 1913 the V.R.M.B.S. and the G.U.O.F.G. were the only societies which experienced increases in the number of members initiated.

The valuations made in recent years have shown that there has been a marked improvement in the financial position of most of the societies. Advantage should be taken of this fact to bring the benefits offered by the societies under the notice of the public and so obtain a larger accession to the membership each year.

INITIATIONS AND SECESSIONS.

A statement giving the number of members admitted in different years does not of itself show the progress being made by a society. Those who pass off the books by death, secession, &c., must also be taken into account. The number of secessions due to contributions being in arrear is usually much in excess of the decrement due to all other causes combined, and the increase in membership depends mainly, therefore, on the excess of initiations over secessions. The great bulk of secessions occur during the first few years, and it is to be expected, in consequence, that a progressive society which is receiving a large number of members each year will have a higher secession rate than a society with the same membership which is making no special effort to obtain additions to its ranks.

In the subjoined table the initiations and secessions in 1909 and 1913 respectively in Male Societies having a membership of 500 or over are compared with the number of members on the books at the end of the preceding year:—

NOTE.—The V.R.M.B.S. and the M.T.B.S. have been omitted from the above list, as their membership is derived solely from persons engaged in a particular occupation.

The table shows that the initiations of 1913 were in most cases larger in number in proportion to membership than those of 1909, and that the secession ratio was generally lower.

In the majority of the societies the increase in membership due to excess of initiations over secessions was proportionately greater in 1913 than in 1909.

In the later year the rate of initiation exceeded that of secession in all societies, whilst in the earlier year the secession rate of one society was greater than its initiation rate.

It is also shown by the table that the best initiation results, measured by the standard adopted, were obtained in 1909 by the I.N.F., the P.A.F.S., and the A.N.A., and in 1913 by the G.U.O.F.G., the P.A.F.S., and the I.N.F., and further, that the lowest secession rates were experienced in both 1909 and 1913 by the M.U.I.O.O.F., the I.O.R., and the G.U.O.O.F.

The ratio of secessions in all Male Societies combined to the number of members at the end of the preceding year was, in 1909, 7·53 per cent., and, in 1913, 7·59 per cent.

JUVENILE SOCIETIES.

There are four of these societies in existence, of which two provide both sick and funeral benefits and two funeral benefits only. Returns have been received from thirty-four branches, and they show that at the end of 1913 the number of benefit members was 466, and the funds amounted to £1,978.

Owing to the comparatively unimportant nature of these particulars, and in order to avoid disturbing the facts relating to male and female societies, the information regarding Juvenile Societies has not been included in the general statistics.

COST OF MANAGEMENT.

The following table shows the proportions of the total annual contributions to all funds, and of the total income, which have been absorbed in expenses of management in each year during the last five years :—

ALL SOCIETIES COMBINED—RATIO OF EXPENSES OF MANAGEMENT TO CONTRIBUTIONS AND INCOME.

Year.	Annual Contributions.	Total Income.	Expenses of Management.

1913	447,916	606,785	76,285	17·0	12·6

The ratio to contributions showed little alteration during the period covered by the table, except in 1911, in which year there was a material reduction.

MALE SOCIETIES.

CONDITION AND PROGRESS.

Numerical.

Existing Societies.

There were 46 Registered Societies in Victoria composed of male members at the end of 1913. This number includes 29 Societies which consist of one branch only.

Branches.

The number of branches of societies in existence was 1,341 at the end of 1913 as compared with 1,344 at the end of 1912. Twelve new branches were opened during the year and fifteen were closed, the net decrease being three.

Members.

The membership of Friendly Societies, excluding females, in Victoria, at the close of the year 1913, was 145,273, an increase of 2,860 on the previous year.

Initiations, inward clearances. Arrears, outward clearances, deaths. Total loss.

During the year, 15,066 members were admitted by initiation, and 3,110 by clearance, the total admissions being 18,176. The number of members who left by arrears, resignations, or expulsion was 10,814, and of those who left by clearance, 3,252. The number of deaths which occurred was 1,250, an increase of 11 on the previous year's record. The total loss of members by arrears, expulsion, &c., was 15,316.

Gain from initiations, loss through arrears.

The following table shows the gain from initiations and the loss through arrears, &c., in male societies, during the years 1911-12-13, measured by the number of members at the beginning of the year :—

Year.	Number of Members at beginning of year.	Initiations.		Arrears, &c.	
		Number.	Gain from.	Number.	Loss through.
			%		%
1911 ...	132,104	16,498	12·49	9,724	7·36
1912 ...	137,547	16,351	11·89	10,201	7·42
1913 ...	142,413	15,066	10·58	10,814	7·59

It will be seen from the foregoing comparison that the proportionate gain from initiations in 1913 was less than in the years 1912 and 1911, and that as regards the retention of old members the results for 1913 were also not so good as in the two preceding years.

Appendix C. Summary tables 1913

Summary Tables I. to VI., Appendix C., contain particulars of the membership, funds, investments, sickness, and mortality experience of each distinct society in Victoria for the year 1913, and to enable members to see with greater facility what improvement the society, in which they are especially interested, has made, both absolutely and relatively to that of other societies, the figures for the preceding year are reproduced.

Summary tables 1878-1913.

Tables VII. to X., Appendix C., contain similar information in respect to all male societies taken collectively for each of the 36 years, during which the Act has been in operation, 1878–1913.

Financial.

Entrance and clearance fees.

Initiation, clearance, and wives' registration fees received during 1913 amounted to £2,859, of which £507 was apportioned to the Sick and Funeral Funds, and £2,352 to the Medical and Management Funds.

Contributions and levies.

The income from contributions and levies during 1913 was £428,818, of which £213,840 was allotted to the Sick and Funeral Funds, £208,083 to the Medical and Management Funds, and £6,895 to the Widows and Orphans' and other Benefit Funds.

Amount of interest.

The amount of interest received from investments during 1913 was £98,277, the Sick and Funeral Funds earning £94,341, the Medical and Management Funds, £2,338, and Widows and Orphans' and other Benefit Funds, £1,598.

Sick pay, funeral claims, and medical benefit.

Sick Pay expended during 1913 amounted to £142,586 and Funeral Money to £30,462. Medical attendance and medicine to members and their families cost £149,023. The total sum disbursed by the societies in providing these three kinds of benefit for members was £322,071.

Management and ratio to contributions.

The cost of management during 1913 was £73,008, being 17·0 per cent. of members' contributions.

Increase in capital of Sick and Funeral Funds.

The increase in the Sick and Funeral Fund capital due to the excess of income over expenditure in 1913 was £127,370.

Sick and Funeral Fund capital.

The capital of the Sick and Funeral Fund at the end of 1913 was £2,302,078, equal to £18 9s. 7d. per effective member. Relatively to the effective membership, there was an increase in the capital in 1913 over that for 1912 of 9s. 6d. per member.

Table XI.—Capital belonging to all the funds.

The total capital of all the societies at the end of 1913 amounted to £2,449,611, equal to £16 17s. 3d. per member, and was made up as follows:— Sick and Funeral Funds, £2,302,078; Medical and Management Funds, £85,380; Widows and Orphans' Funds, £14,223; Congregational Ministers' Provident Society, £19,085; Central Medical Benefit Society, £85; Dividing Societies, £383; and "Other Funds," chiefly Benevolent and Suspense Funds, £28,377.

Total receipts expenditure, and funds.

The total receipts from all sources, the expenditure for all purposes, and the aggregate capital for the year 1913, are given in the table following:—

Table IV.—Investment.

The capital of the Sick and Funeral Funds at the end of 1913, viz., £2,302,078, was invested as follows:—£1,461,099 on mortgage and in debentures, £323,450 in Victorian Government Special Inscribed Stock, £352,635 in banks, and £92,833 in halls and other freehold property, the sum remaining uninvested being £72,061, equal to 3·1 per cent. of the amount standing to the credit of these funds.

Distribution and investment of total capital.

The total capital of all the funds at the end of 1913 was distributed and invested in the manner following :—

Rate of interest.

The rate of interest realized during 1913 on the Sick and Funeral Funds was 4·21 per cent., being slightly less than that earned in 1912, in which year the rate obtained was the highest since 1894. It fell steadily from 5·30 per cent. in 1891 to 3·61 per cent. in 1899, but after that year it commenced to improve. During the decennium 1904–1913 the rates were on the average satisfactory. In the respective years of that period they were as follows :—4·01, 3·98, 4·00, 4·02, 3·97, 4·05, 4·06, 4·18, 4·25, and 4·21 per cent.

Sickness Experience.

Table V.—Proportion sick. Duration of sickness. Sick pay per effective member, &c.

During 1913, 25,916 members received sick pay, or 20 per cent. of the total effective membership. The aggregate duration of sickness was 209,188 weeks, equal to 48 days per sick member, and the amount of sick pay disbursed was equivalent to £1 2s. 5d. per effective member, and to £5 10s. 0d. per claimant. The average rate of sick pay per week was 13s. 8d.

Mortality Experience.

Death rate.

The number of members who died during the year was 1,250. The ratio of deaths to the number of members living, or the central death rate, in 1913, was 8·69 per 1,000, being slightly lower than in 1912.

Deaths of wives.

There were 464 wives who died in 1913, or 3·33 per 1,000 *members.* The reference is made to members, as the total number of *wives* cannot be obtained with accuracy.

DEPARTURE BY ARREARS, ETC.

Arrears and clearances.

The number of members who resigned or who were excluded from membership through arrears of contributions or otherwise was equal in 1913 to 75·2 per 1,000 ; and the departures by arrears, resignation, and expulsion, *as well as clearance*, were in the ratio of 97·8 per 1,000 ; the clearances per 1,000 therefore numbered 22·6, the annual average being 2·3 per cent. during the two years 1912-13.

FEMALE SOCIETIES.

CONDITION AND PROGRESS.

Numerical.

Female Societies—Branches.

The number of registered friendly societies composed solely of females at the end of 1913 was 11, of which 10 were affiliated with male societies, and the number of branches was 160. Particulars relating thereto are entered after the tables pertaining to males in Appendix C.

Members. Admissions, Deaths, Clearances, Arrears.

The membership at the beginning of 1913 was 11,508; the number of members admitted during the year was 2,687; the number who died, 37; and the number who left by clearance, arrears, &c., 2,151. The net gain during the year was 499; the membership thus increasing to 12,007 at the end of the year, of which number 8,974 were entitled to benefits.

Financial.

Sick and Funeral Funds.

Receipts.

The capital of the Sick and Funeral Funds at the beginning of 1913 was £32,010. Contributions received during the year amounted to £7,834, interest to £1,289, and other receipts to £104, the total receipts amounting to £9,227.

Expenditure.

The amount expended in sick pay was £4,533 and the sum paid in funeral benefits £330; other expenditure amounted to £287; and the total expenditure during the year to £5,150; the excess of receipts over expenditure was thus £4,077; and the capital of the Sick and Funeral Funds increased to £36,087 at the end of 1913.

Interest.

During 1913 the rate of interest earned on the Sick and Funeral Funds was 3·79 per cent. This is slightly less than the rate for the previous year, which was 3·80 per cent. The latter is the highest rate that has yet been obtained by female societies.

Medical and Management Funds.

The contributions, levies, entrance fees, and clearance fees credited to the Medical and Management Funds amounted to £11,507, interest to £93, and other receipts to £1,504, making a total income of £13,104. The total outgo for the year was £12,674, comprising medical benefits £8,803, management expenses £3,277, and other expenditure £594. The capital at the end of the year was £4,631.

Other Funds.

The amount to the credit of Other Funds at the end of 1913 was £628.

Total Capital.

The total capital held by the female societies at the end of 1913, consisting of Sick and Funeral, Medical and Management, and Other Funds, amounted to £41,346.

MALE AND FEMALE SOCIETIES.

Members and Funds.

Membership—Male and Female.

The membership of registered friendly societies in Victoria at the end of 1913 consisted of 145,273 males and 12,007 females, making a grand total of 157,280 members.

Funds—Male and Female.

The Funds at 31st December, 1913, amounted to £2,490,957, of which £2,449,611 belonged to male, and £41,346 to female societies.

Numerical and Financial Progress, Male Societies, 1878–1913.

Condition of Friendly Societies, 1878-1913.

A review of the condition of male friendly societies in this State during the period 1878–1913 is here given. At the beginning of 1878 the total membership of registered friendly societies was 45,430, and there was a steady increase to 90,403 in 1891, when for three years during a depression in trade there was a decrease, the membership declining to 79,204 in 1894. In 1895 numerical recovery began to set in, and this continued until 1903, when the membership decreased from 102,364 to 101,717, consequent upon a temporary depression then being experienced in the State. Improvement again took place in 1904, and this has continued ever since, the total membership being 145,273 at the end of 1913.

The funds of the societies, which at the beginning of 1878 amounted to £367,079, steadily increased until at the end of 1913 the grand total was £2,449,611.

Table VII. —Members.

Particulars of members, funds, and investments of all the male societies taken together and of the experience of these societies for each of the 36 years, 1878–1913, are contained in Tables VII. to X. of Appendix C. The following is a compendium of the numerical statement, Table VII.:—

ADMISSIONS, DEATHS, DEPARTURES, AND INCREASE OF MEMBERS, 1878–1913.

Admissions by initiation	402,912
Admissions by clearance	58,695
Total admissions	461,607
Departures by arrears, &c.	268,857
Departures by clearance	60,976
Total departures	329,833
Excess of admissions over departures	131,774
Deaths of members	31,931
Increase in members during the period	99,843
Number of members at the beginning of 1878	45,430
Number of members at the end of 1913	145,273

Gain by initiations, loss by exclusions.

The large number of 402,912 members was gained during the 36 years 1878–1913 by initiation, while 268,857 members were lost by arrears, resignation, and expulsion, and 31,931 by death, more than eight times as many members being lost by arrears, &c., than by death.

Table VIII. —Receipts, expenditure and funds.

The amounts received and expended in the Sick and Funeral and Medical and Management Funds taken together during the 36 years 1878–1913 were as under:—

RECEIPTS, EXPENDITURE, AND FUNDS, 1878–1913.

	£
Sum contributed by members	9,320,158
Interest	1,716,068
Other receipts	987,867
Total Receipts	12,024,093
Sick pay	3,464,616
Funeral benefits	750,070
Medical benefits	3,287,806
Management	1,668,863
Other expenditure	832,359
Total Expenditure	10,003,714
Excess of receipts over expenditure	2,020,379
Funds at the beginning of 1878	367,079
Funds at the end of 1913	2,387,458

Proportional receipts and expenditure.

In proportion to the total receipts during the 36 years the sum paid in by members under the head of entrance and clearance fees, periodical contributions, and levies was equal to 78, interest to 14, and other receipts to 8 per cent.; the expenses of management amounted to 14 per cent. of the total receipts; and, proportionately to the total expenditure, sick pay was equal to 35, funeral benefits to 7, medical benefits to 33, cost of management to 17, and other expenditure to 8 per cent. It may be added that, measured by the total receipts, the increase in the funds during 1878–1913 was equivalent to 17 per cent., and the total expenditure to 83 per cent.

Table IX.—Rate of investment and interest.

An average of 94·4 per cent. of the total capital of the Sick and Funeral and Medical and Management Funds was kept constantly invested during the 36 years, the rate of interest realized on the total funds during the period averaging 4·11 per cent. per annum.

Table X.—Experience.

The average proportion of members on the sick list annually during the last 31 years was 222·1 per 1,000 effective members; the average for a longer period cannot be given, as 1883 was the first year in which the members entitled to benefits were distinguished from the total members.

MISAPPLICATION OF FUNDS.

Increase in misapplication of Funds.

The amount misappropriated from the Sick and Funeral Fund for Medical and Management Fund purposes increased from £6,165 in 1912 to £6,511 in 1913; the number of offending branches in 1913 was 178, as compared with 197 in 1912.

Complete restoration must be made.

The attention of the offending branches in the various societies has been drawn to the misuse of funds belonging to the Sick and Funeral Fund and a direction issued that provision must be made for the complete restoration to the despoiled fund of moneys illegally used.

Such misapplication of funds is a violation of Section 6, sub-section (2), *Friendly Societies Act* 1891, which provides that all moneys received for sick or funeral benefits shall be entered in a separate account distinct from moneys received on account of any other fund or benefit and shall not be used in any manner for the advantage of any other fund or benefit.

Effect of misapplication of Funds.

The financial progress of societies is materially retarded by the Sick and Funeral Funds being used for purposes other than those for which they were intended.

The offending Societies, and the amounts misappropriated during 1909-10-11-12-13, are here stated :—

It will be noticed from the foregoing table that the largest increases during 1913, compared with 1912, in the amounts misapplied were, in the S.P.S. £753, the I.O.R. £196, and the M.U.I.O.O.F. £31, and that there were substantial decreases in the I.O.O.F. and the I.N.F. The increase in the amount improperly applied by the S.P.S. was due to a large deficiency in the funds of the Melbourne Branch, which was disclosed by a special audit of its accounts, and to the expenditure of a sum of £300 by that branch in law costs in connexion with a dispute between it and the central body. Steps are being taken to use the surplus shown at the last quinquennial valuation of the branch to repay wholly or in part the amount misappropriated.

DATES OF FURNISHING RETURNS, 1913.

Furnishing returns.

One of the duties and obligations incumbent on Friendly Societies by virtue of Section 14, *Friendly Societies Act* 1890, is that every registered society shall, *before the 1st day of February* in each year, send to the Government Statist Returns A and B, containing statements of receipts, expenditure, funds, and effects of the society, together with other statistics of sickness, mortality, &c., and it is an offence under the Act if any registered society or branch wilfully neglects or refuses to furnish this information.

Number by and after due date.

In the case of 924 branches only (about three-fifths of the whole) was the law fully complied with, and the information furnished prior to the statutory date, 1st February; 1,481 branches sent in their returns during the first quarter of the year; 88 branches delayed their returns until the second, and four until the third quarter. On the 9th April last 78 secretaries who had failed to furnish annual returns were reported to the Hon. the Chief Secretary, in order that steps might be taken to enforce compliance with the provisions of the *Friendly Societies Act* 1890, sec. 14 (1), (*d*). The defaulting secretaries were written to by the Crown Solicitor, and complete returns were subsequently furnished by all of the branches in default. On the 3rd July last I suggested that legal proceedings should at once be taken against those societies whose returns were then incomplete. Summonses were thereupon issued against the P.A.F.S., the H.A.C.B.S., and the U.A.O.D. These three societies have in recent years been persistent offenders with regard to failure to furnish returns. A full statement of the proceedings appears on page xi.

Results of delay in furnishing.

Statistics of friendly societies, published annually in the Report of the Government Statist, lose a great deal of their usefulness owing to the delay in publication due to the dilatoriness of secretaries in furnishing returns. The work of preparing such returns occupies but little time, and no unnecessary hardship is imposed by insistence on their being forwarded promptly, in compliance with the Statute.

INFORMATION USEFUL TO MEMBERS, ETC.

Appendix B.—Contents useful to members, &c.

In Appendix B to this Report the entrance fees and annual contributions paid by members to the several funds, and the benefits given therefor, in all the ordinary registered friendly societies in Victoria (male, female, and juvenile), as compiled from the rules of the societies now in force, are shown in detail for the information of present and intending members. It has not been thought necessary to include in this Appendix Dividing Societies, as these exist for one year only, and must be reconstituted at the beginning of each year.

* Approximate figures.

Extent of the Friendly Society Movement in Australasia.

There are 5,714 branches in the various friendly societies in Australasia, and about 100 members on the average in each branch, or a total of 572,545; assuming that for each member there are three additional persons participating on the average in the medical, sickness, or funeral benefits of these societies, over 2,290,000 persons, or more than 38 per cent. of the total population of Australasia, are connected directly with the societies and share in the benefits conferred thereby.

Victoria possesses about 26 per cent. of the branches, more than 27 per cent. of the members, and almost 32 per cent. of the capital belonging to the whole of the Societies; the accumulated funds of the societies in Victoria on 31st December, 1913, amounted to £2,490,957, and were considerably in excess of those of any other State, New South Wales coming next with £1,720,394 at the end of 1913, followed by New Zealand, with £1,643,177 at the end of 1913, and South Australia with £863,998 at the end of 1909. In regard to capital relatively to membership, New Zealand stands first with £22 6s. for each member; the second place being occupied by Victoria, which has over £15 16s. per member.

FIRST VALUATION OF THE U.F.J.B.S.

Letter from the Government Statist to the Secretary forwarding Results of his Valuation.

Office of the Government Statist,
Melbourne, 3rd June, 1914.

Sir,

I have the honour to forward herewith my Report on the financial condition of the United Friends Jewish Benefit Society, together with an abstract of the results of my valuation as at the 31st December, 1912, in accordance with the provisions of the *Friendly Societies Act* 1890.

There is a surplus of £270, the ratio of assets to liabilities being 47s. 7d. in the £1.

With reference to your application to be allowed to allot £15 to each member I have no objection to the withdrawal of the sum of £195 necessary to enable this to be done.

I have, &c.,

A. M. LAUGHTON,

Government Statist.

Solomon Barnett, Esq.,
Secretary United Friends Jewish Benefit Society,
180 Russell Street, Melbourne.

1. I have taken the Victorian Friendly Societies' Experience, 1903–07, as the basis of the Valuation Tables employed.

2. This is the first valuation of the Society since its date of registration.

3. The membership is 13, and the average age of members is 62½ years.

4. The capital of the Sick and Funeral Fund at the end of 1912 was £418. The average rate of interest which was earned on the capital during the five years 1908-12 was only 2¾ per cent.

5. The valuation shows a surplus of £270, and a ratio of assets to liabilities of 47s. 7d. in the £1.

6. The above surplus and ratio of assets to liabilities are dependent on the assets being of equal value to the amounts at which they appear in the books of the Society.

7. In a small institution ordinary fluctuations in the experience as regards sickness and other matters may produce important alterations in the financial position. In the case of this Society, however, the provision in Rule 52, limiting the amount which may be drawn as Sick Pay to £10, modifies the effect of an unfavorable sickness experience.

SEVENTH VALUATION OF THE A.N.A.

Letter from the Government Statist to the General Secretary forwarding Results of his Valuation.

Office of the Government Statist,
Melbourne, 21st October, 1914.

SIR,

I have the honour to forward herewith my Report on the financial condition of the Australian Natives Association, together with an abstract of the results of the valuation as at the 31st December, 1913, in accordance with the provisions of the *Friendly Societies Act* 1890.

The Society has made very satisfactory progress during the past five years. There has been a large increase in the membership, the sickness and mortality experiences have been favorable and there has been an increase in the average rate of interest earned.

There is a surplus of £57,325, the ratio of assets to liabilities being 20s. 11d. in the £1.

I have, &c.,
A. M. LAUGHTON,
Government Statist.

1. I have taken the Victorian Friendly Societies' Experience, 1903–07, as the basis of the Valuation Tables employed.

2. The values of the prospective income and outgo, on account of members owing more than fourteen weeks' contributions, have been excluded from the valuation.

3. The number of full benefit members was 22,446 at the end of 1908 and 28,374 at the end of 1913, there being an increase of 5,928 in the quinquennium. The average age of members increased from 31½ years at the beginning to 33 years at the end of the quinquennium.

4. The sickness and mortality experiences have been favorable, the actual experience in each case having been not only less than that expected, but also less than the experience of the previous quinquennium.

5. The favorable sickess experience relates principally to the periods after the first six months. The sickness for the first period differs little from that expected according to the table used in the valuation. At nearly all ages the mortality was more favorable than had been anticipated.

6. The number of weeks' sickness claimed at each rate of sick pay and the number of members at risk during the quinquennial periods 1904-1908 and 1909-1913 are shown in the following table:—

SICKNESS AT FULL AND REDUCED RATES. MEMBERS AT RISK 1904-08 AND 1909-13.

Quinquennial Period.	Members at Risk.	Sickness.			
		1st Six Months at 20s.	2nd Six Month at 10s.	3rd Six Months and after at 5s.	Total.
		Weeks.	Weeks.	Weeks.	Weeks.
1904-08	99,896	68,854 81%	6,188 7%	10,526 12%	85,568 100%
1909-13	125,737	92,316 78%	8,508 7%	17,194 15%	118,018 100%

7. Secessions were greater in number than had been anticipated, but the excess over the expected was proportionately less than in the previous quinquennium.

8. The rate of interest earned on the funds averaged about 4 per cent., as compared with 3¾ per cent. for the preceding quinquennium.

9. The valuation shows a surplus of £57,325 and a ratio of assets to liabilities of 20s. 11d. in the £1.

---

and of the preceding Valuation as at the 31st December, 1908.

10. The above surplus and ratio of assets to liabilities are dependent on the assets being of equal value to the amounts at which they appear in the Association's books.

11. The following statement shows the position of the Association at the date of each of the seven periodical valuations. The experience in regard to mortality, sickness, and secessions is not given for periods prior to 1908, as the table used in valuations made before that date was different from that now employed. This change in basis should be kept in view when comparing the results disclosed by valuations at different dates.

1913	28,374	33	4	−14	− 8	+ 6	+57,325	20 11

12. It will be seen that the surplus has increased from £4,589 in 1908 to £57,325 in 1913, and the ratio of assets to liabilities from 20s. 1d. to 20s. 11d. in the £1.

13. This is a very favorable result, and it is, I believe, due mainly to the low rates of sickness and mortality which have prevailed, and to the increase in the interest earnings.

14. I append a table showing, for the various ages at entry, the weekly rates of contributions payable to the Sick and Funeral Fund, and the number of financial members existing at the date of the valuation at different groups of ages attained.

15. The first column of the Table of Relative Position shows with regard to the average annual rates of interest obtained on the Sick Funds of the branches during the quinquennial period under review that—

16 ,, ,, 0 ,, ,,

16. Of the thirty-six branches which secured under 2 per cent., sixteen have been less than five years in existence.

17. The average age of the members in all branches taken together was thirty-three years, ranging from twenty-three in the Glenorchy to forty-eight and a quarter years in the Beulah branch.

18. The last three columns of the Table of Relative Position deal with the assets relative to the liabilities. It is seen that in eighty branches the assets were greater than the liabilities, ranging from 32s. 11d. in the Beulah down to 20s. 2d. in the St. Kilda branch. In four they were equal, and they were less than the liabilities in the remaining 124 branches, ranging downwards from 19s. 11d. in the South Melbourne, Rushworth, Swan Hill, Dimboola, and Heyfield branches to 11s. in the Allendale branch.

SEVENTH VALUATION OF THE BENDIGO DISTRICT, A.O.F.

Letter from the Government Statist to the District Secretary forwarding Results of his Valuation.

Office of the Government Statist,
Melbourne, 21st October, 1914.

SIR,

I have the honour to forward herewith my Report on the financial condition of the Male Courts of the Bendigo District Ancient Order of Foresters, together with an abstract of the results of the valuation as at the 31st December, 1913, in accordance with the provisions of the *Friendly Societies Act* 1890.

The valuation shows a surplus of £974, the ratio of assets to liabilities being 21s. 11d. in the £1.

There has been a considerable improvement since the last valuation, chiefly owing to the increase in the interest earnings and to the steps which have been taken during the quinquennium to strengthen the resources of the Society.

I have, &c.,
A. M. LAUGHTON,
Government Statist.

Mark H. P. Webb, Esq., D.S., A.O.F., Bendigo District.

1. I have taken the Victorian Friendly Societies' Experience, 1903-07, as the basis of the Valuation Tables employed.

2. The values of the prospective income and outgo, on account of members owing more than fourteen weeks' contributions, have been excluded from the valuation.

3. The membership declined from 297 at the end of 1908 to 179 at the end of 1913, there being a reduction of 118 members.

4. The average age has increased from 55 to 59½, an increase of 4½ years. The average contribution has remained practically stationary.

5. The experience in regard to sickness has been favorable, but the rates of mortality experienced have been higher than anticipated.

6. The rate of interest earned during the quinquennium averaged 3½ per cent., as compared with 3 per cent. for the previous five-year period.

7. It is provided in the rules that District members shall receive reduced sickness benefits. In some of the courts it has been customary to grant sick pay at reduced rates, but there is no provision for this in the rules. In the valuation I have assumed that the amounts of sickness benefits payable will be those set forth in the registered rules.

8. The valuation discloses a surplus of £974, the ratio of assets to liabilities being 21s. 11d. in the £1.

9. The above surplus and ratio of assets to liabilities are dependent on the assets being of equal value to the amounts at which they appear in the Society's books.

10. The improvement in the financial position is due to various causes. There has been a marked increase in the interest earnings. The sickness experience has been favorable, and the sickness payments and funeral allowances have in many instances been made at reduced rates.

11. The financial position of the Society was formerly very unsatisfactory, but the steps which have been taken to improve its position have had a beneficial effect. If the improvement is to be permanent it will be necessary that very careful supervision be exercised over the Society's operations.

12. I append a table showing, for the various ages at entry, the weekly rates of contribution payable to the Sick and Funeral Fund, and the number of financial members existing at the date of the valuation at different groups of ages attained:—

THIRD VALUATION OF COURT STAR OF BENDIGO (FEMALE BRANCH), A.O.F.

Letter from the Government Statist to the District Secretary forwarding Results of his Valuation.

Office of the Government Statist,
Melbourne, 21st October, 1914.

SIR,

I have the honour to forward herewith my Report on the financial condition of Court Star of Bendigo (Female Branch), Bendigo District, Ancient Order of Foresters, together with an abstract of the results of the valuation as at the 31st December, 1913, in accordance with the provisions of the *Friendly Societies Act* 1890.

The valuation discloses a surplus of £77, and a ratio of assets to liabilities of 21s. 2d. in the £1.

The sickness experience has been excessive, and it has been assumed in the valuation that this does not give a correct representation of the rates of sickness which will prevail in the future. There has been a slight improvement in the interest earnings, but the rate is still very low.

It will be necessary that great care be exercised in the supervision of the court's affairs if its financial position is not to deteriorate.

I have, &c.,

1. I have taken the Victorian Friendly Societies' Experience, 1903-07, as the basis of the Valuation Tables employed.

2. The results obtained, in the first instance, from the Valuation Tables, have been modified so as to approximate as closely as was considered expedient to the quantities which would have been brought out had such tables been originally based on the quinquennial experience of the members of the Court.

3. The values of the prospective income and outgo, on account of members owing more than fourteen weeks' contributions, have been excluded from the Valuation.

4. The membership, which was 48 at the end of 1908, decreased to 36 at the end of 1913. The average age increased from 35 to 40½ years, and the average annual contribution per member from £1 6s. 6d. to £1 8s. 8d.

5. The sickness experience has been very unfavorable, especially at the younger ages. Both the sickness and secession rates were much higher than in the previous quinquennial period.

6. The rate of interest earned on the Sick and Funeral Fund averaged 3 per cent. as compared with 2½ per cent. in the previous quinquennium.

7. The valuation shows a surplus of £77 and a ratio of assets to liabilities of 21s. 2d. in the £1.

8. The above surplus and ratio of assets to liabilities are dependent on the assets being of equal value to the amounts at which they appear in the Society's books.

9. It was assumed in the valuation that the sickness experienced in the different periods would, at all ages, exceed the rate according to the table by 50 per cent. The actual experience during the valuation period was much higher than this, but this was due in great measure to excessive sickness rates at early ages.

10. The rate of interest earned—3 per cent.—though higher than in the preceding period is still very low. It should be possible to increase this by placing in the Victorian Government Special Inscribed Stock money which is not required for current purposes.

11. The sickness experience during the last ten years is shown in detail in the following statement :—

SEVENTH VALUATION OF THE GEELONG AND WESTERN DISTRICT A.O.F.

Letter from the Government Statist to the District Secretary forwarding Results of his Valuation.

Office of the Government Statist,
Melbourne, 21st October, 1914.

SIR,

I have the honour to forward herewith my Report on the financial condition of the Geelong and Western District Ancient Order of Foresters, together with an abstract of the results of the valuation as at the 31st December, 1913, in accordance with the provisions of the *Friendly Societies Act* 1890.

The valuation shows a deficiency of £2.471, and a ratio of assets to liabilities of 16s. 5d. in the £1.

The position cannot be regarded as satisfactory. The deficiency is large, and there has been practically no progress during the quinquennium. This is partly due to the burden which a large deficiency imposes on the resources of a society. It is also due in large measure to the exceptionally low rate of interest earned on the Sick and Funeral Funds.

I have, &c.,

Government Statist.

31st December, 1908	262	175	33 0	45¾	46¾	+12	–44	–27	2½	4	3½	4¼	4	3¾

1. I have taken the Victorian Friendly Societies' Experience, 1903–07, as the basis of the Valuation Tables employed.

2. The values of the prospective income and outgo, on account of members owing more than fourteen weeks' contributions, have been excluded from the valuation.

3. The membership at the end of 1913 was 240 as compared with 262 at the end of 1908, thus showing a decline of 22 during the quinquennium.

4. The average age of members has increased from 46¾ to 49½ years.

5. Both the sickness and the mortality experiences have been favorable.

6. The rate of interest earned on the Sick and Funeral Fund averaged 3¼ per cent., as compared with 3¾ per cent. for the previous five-year period.

7. The valuation discloses a deficiency of £2,471, and a ratio of assets to liabilities of 16s. 5d. in the £1.

8. The above ratio of assets to liabilities is dependent on the assets being of equal value to the amounts at which they appear in the Society's books.

9. The deficiency is, I believe, due to the inadequacy of the rates which were formally paid by a large section of the members.

10. At the preceding valuation there was a deficit of £2,726, the ratio of assets to liabilities being 16s. 4d. in the £1. While the present valuation shows a slight improvement, the deficiency is still very large. Every effort must be made to improve the financial position of the Society, otherwise it may become necessary for me to take steps to have the rates of contribution increased.

11. The lack of progress is due mainly to the facts that the Society is burdened with a large deficiency, and that it is earning a much lower rate of interest than the average obtained by Victorian Friendly Societies. The rate realized on its funds in the period 1909–1913 was considerably below the average for the previous quinquennium.

12. A large portion of the funds is deposited with banks, the amount being £3,142 at the end of 1913. It should be possible to invest much of this in the Victorian Government Special Inscribed Stock, on which the rate of interest payable is 4 per cent.

13. I append a table showing, for the various ages at entry, the weekly rates of contribution payable to the Sick and Funeral Fund and the number of financial members existing at the date of the valuation at different groups of ages attained :—

FIFTH VALUATION OF THE M.T.B.S.

Letter from the Government Statist to the Secretary forwarding results of his Valuation.

Office of the Government Statist,
Melbourne, 21st October, 1914.

SIR,

I have the honour to forward herewith my Report on the financial condition of the Mutual Benefit Society of the Employés of the Melbourne Tramway and Omnibus Co. Limited, together with an abstract of the results of my valuation as at 31st December, 1913, in accordance with the provisions of the *Friendly Societies Act* 1890.

The position of the Society is practically the same as at the date of the last valuation, the ratio of assets to liabilities being 19s. in the £1.

The rate of sickness is exceptionally high, and it is necessary that very careful supervision be exercised over the operations of the Society, otherwise the rate of contribution may become inadequate to provide the benefits.

I have, &c.,

1. I have taken the Victorian Friendly Societies' Experience, 1903-07, as the basis of the Valuation Tables employed.

2. The results obtained, in the first instance, from the Valuation Tables, have been modified so as to approximate as closely as was considered expedient to the quantities which would have been brought out had such tables been originally based on the quinquennial experience of the members of the Society.

3. The values of the prospective income and outgo, on account of members owing more than fourteen weeks' contributions, have been excluded from the Valuation.

4. The membership increased from 1,118 at the beginning to 1,278 at the end of the quinquennium. The average age increased from 37½ to 38¾ years.

5. The rate of mortality has been favorable, but the sickness rate has been very much higher than that expected according to the table used in the Valuation. The excess sickness occurred during the first period of six months. In the two subsequent periods the experience was favorable.

6. The rate of interest earned on the Sick and Funeral Fund averaged a little over 3¾ per cent., being about the same as in the previous quinquennial period.

7. The valuation discloses a deficiency of £2,592, and a ratio of assets to liabilities of 19s. in the £1.

8. The above ratio of assets to liabilities is dependent on the assets being of equal value to the amounts at which they appear in the Society's books.

9. The rate of contribution payable would be ample if the sickness rates were similar to those prevailing in most other societies. Under the conditions which exist, however, it is fully required, and, if the future experience in regard to sick pay should be less favorable than it has been during the last five years, it will be necessary to consider whether the rate of contribution is sufficient to provide the benefits.

SEVENTH VALUATION OF THE P.A.F S.

Letter from the Government Statist to the Grand Secretary forwarding Results of his Valuation.

Office of the Government Statist,
Melbourne, 21st October, 1914.

SIR,

I have the honour to forward herewith my Report on the financial condition of the Sick and Funeral Funds of the Protestant Alliance Friendly Society, Male Members, together with an abstract of the results of the valuation as at 31st December, 1913, in accordance with the provisions of the *Friendly Societies Act* 1890.

The valuation shows a deficiency of £1,944, the ratio of assets to liabilities being 19s. 9d. in the £1.

There has been an improvement in the financial position of the Society during the quinquennium, but for reasons mentioned in my report this has not been so great as would appear from a comparison of the results of the present and preceding valuations.

I have, the honour to be, Sir,
Your obedient servant,
A. M. LAUGHTON,
Government Statist.

J. Callaghan Esq., G.S., P.A.F.S.,
Protestant Hall, Exhibition-street, Melbourne.

1. I have taken the Victorian Friendly Societies' Experience, 1903-07, as the basis of the Valuation Tables employed.

2. The values of the prospective income and outgo, on account of members owing more than fourteen weeks' contributions, have been excluded from the Valuation.

3. The membership increased from 2,981 full and 6 limited benefit members at the beginning to 4,064 full and 12 limited benefit members at the end of the quinquennium. The average age increased from 31¾ to 32½ years.

4. Both the sickness and mortality experiences have been favorable, and they show an improvement over the previous quinquennial period.

5. The average rate of interest earned on the Sick and Funeral Fund was 4½ per cent. as compared with 4¼ per cent. in the previous quinquennium.

6. Since the last valuation was made the Society has consolidated its Sick Funds. The duty of investing the funds has thus been transferred from the individual lodges to the central body.

7. The valuation discloses a deficiency of £1,944, and a ratio of assets to liabilities of 19s. 9d. in the £1.

8. The above ratio of assets to liabilities is dependent on the assets being of equal value to the amounts at which they appear in the Society's books.

9. At the previous valuation there was a deficit of £14,458, a much larger sum than on the present occasion. The improvement in the Society's position has, however, not been so great as would be indicated by a comparison of the deficits disclosed by the two valuations It is due principally to the rate of interest assumed in the present valuation being much higher than the average rate adopted for the lodge Sick Funds and the Funeral Fund on the former occasion.

10. The rate assumed in the 1913 valuation was 4 per cent. In 1908 the rate was for the Funeral Fund 4 per cent., and for the lodge Sick Funds 3 and 3½ per cent., the former rate being the usual one. While there is a fair margin between the rate now adopted and that earned, it is less than the average difference at the date of the last valuation.

11. The favorable sickness experience has contributed to the improvement shown in the financial position, though to a much less extent than the cause referred to above.

12. In the previous valuation it was necessary to treat each lodge independently, the rate of interest assumed depending on the rate earned by the lodge. The funds having been consolidated, a uniform rate was adopted at the latest valuation for all the liabilities of the Society, and this had the effect of reducing the amount reserved and, as a consequence, increasing the ratio of assets to liabilties. The reduction in the deficit due to this cause does not represent an increase in the Society's resources. It is probable, however, that the consolidation of funds will have a beneficial effect on the Society in future, by enabling it to earn a higher average rate of interest than it obtained when each lodge dealt with its own funds.

13. The rates of contribution payable at some of the younger ages are low, and they may become inadequate if the present favorable position as regards the average rate of interest earned and the sickness and mortality experiences is not maintained.

14. For the purposes of the valuation particulars were obtained of the rates of contribution payable by all members. These showed that a number of members had not been paying rates in accordance with Rule No. 117, since it came into operation in 1909. I intimated to the Grand Secretary of the Society that the rule must be complied with, and was informed by him that the Grand Executive Council had resolved to notify me that all full benefit members are now paying contributions in accordance with Rule No. 117, and will continue to do so, also that provision is being made to collect arrears owing since 1909.

15. It was also ascertained that widows had not been paying the contributions mentioned in Rule No. 128. Steps are being taken to have this rule altered so that the Society may not suffer any financial loss in respect of widows' benefits.

16. I append a table showing, for the various ages at entry, the weekly rates of contribution payable to the Sick and Funeral Fund, and the number of financial members existing at the date of the valuation at different groups of ages attained :—

SECOND VALUATION OF THE P.A.F.S. (FEMALE MEMBERS).

Letter from the Government Statist to the Grand Secretary forwarding Results of his Valuation.

Office of the Government Statist,
Melbourne, 21st October, 1914.

Sir,

I have the honour to forward herewith my Report on the financial condition of the Sick and Funeral Funds of the Protestant Alliance Friendly Society (Female Members), together with an abstract of the results of the valuation as at the 31st December, 1913, in accordance with the provisions of the *Friendly Societies Act* 1890.

The valuation shows a surplus of £5,337, and a ratio of assets to liabilities of 23s. 10d. in the £1.

The sick funds of the Society have been consolidated since the date of the last valuation. This has had the effect of largely increasing the interest earnings, and of making it possible to value the assets and liabilities at a higher rate of interest than that which was then adopted.

I have, &c.,
A. M. LAUGHTON,
Government Statist.

31st Dec., 1908	1,067	18 10	...	24¼	...	...	...	2	3¼	3¾	3¾	4	3¼	...

1. I have taken the Victorian Friendly Societies' Experience, 1903–7, as the basis of the Valuation Tables employed.

2. The results obtained, in the first instance, from the Valuation Tables, have been modified so as to approximate as closely as was considered expedient to the quantities which would have been brought out had such tables been originally based on the quinquennial experience of the Society.

3. The values of the prospective income and outgo, on account of members owing more than fourteen weeks' contributions, have been excluded from the Valuation.

4. The membership increased from 1,067 at the beginning to 1,582 at the end of the quinquennium, and the average age advanced from 24¼ to 25 years.

5. The average rate of interest at which the Sick and Funeral Funds were invested during the quinquennium was 4¾ per cent., as compared with an average rate of 3¼ per cent. for the previous quinquennium.

6. During the quinquennium the Society consolidated its Sick Funds. The duty of investing the funds has thus been transferred from the individual lodges to the Central Body. As a result of this there has been a large increase in the interest yield, the average rate for the quinquennium having advanced by 1½ per cent.

7. The valuation shows a surplus of £5,337, and a ratio of assets to liabilities of 23s. 10d. in the £1.

8. The above surplus and ratio of assets to liabilities are dependent on the assets being of equal value to the amounts at which they appear in the Society's books.

9. The consolidation of the Sick Funds has made it possible to value all the liabilities of the Society at a single rate of interest instead of at varying rates as in the preceding valuation. The effect of this in the present instance has been to lessen the relative amount of the reserves required as a provision for future liabilities.

10. The surplus owes its existence in part to the reason just mentioned. The large increase in the average rate of interest earned has also been an important contributing factor.

11. I append a table showing, for the various ages at entry, the weekly rates of contribution payable to the Sick and Funeral Fund and the number of financial members existing at the date of the valuation at different groups of ages attained—

APPENDIX D.

FRIENDLY SOCIETIES ACTS AMENDMENT ACT 1914.

VICTORIA.

ANNO QUINTO

GEORGII QUINTI REGIS.

No. 2533.

An Act to amend the Friendly Societies Acts.

[*5th October*, 1914.]

BE it enacted by the King's Most Excellent Majesty by and with the advice and consent of the Legislative Council and the Legislative Assembly of Victoria in this present Parliament assembled and by the authority of the same as follows (that is to say) :—

Short title construction and citation.

Nos. 1094, 1232, 1686, 1967, 2107, 2317.

1. This Act may be cited as the *Friendly Societies Acts Amendment Act* 1914 and shall be read and construed as one with the *Friendly Societies Act* 1890 and any Act amending the same all of which Acts and this Act may be cited together as the Friendly Societies Acts.

Amendment of No. 1094 s. 14 (III.) as re-enacted by No. 1232 s. 6 (2).

2. At the end of sub-section (III.) of section fourteen of the *Friendly Societies Act* 1890 as re-enacted by sub-section (2) of section six of the *Friendly Societies Act* 1891 there shall be added the following words :—

Authority for application of surplus after valuation.

" Provided further that on a valuation being made under this Act of the assets and liabilities of a society the Government Statist may authorize the whole or any portion of any surplus of assets over liabilities thereby disclosed in respect of any one fund or benefit to be used or applied in any manner for the purposes of the same or any other fund or benefit."

Repeal of No. 1094 s. 17.

Accumulation and withdrawal of surplus contributions.

3. Section seventeen of the *Friendly Societies Act* 1890 is hereby repealed.

Saving as to existing rules.

Provided that any rule under that section registered before the commencement of this Act shall have the same operation force and effect as if that section had not been repealed.

Power to appoint officer to act for Government Statist in case of incapacity or absence.

Nos. 1543, 2148.

4. Notwithstanding anything in the *Assistant Government Statist's Act* 1898 or the *Government Statist Act* 1908 or any other Act the Governor in Council may subject to the Public Service Acts appoint any person to perform or exercise during the incapacity or temporary absence of the Government Statist such of the duties obligations rights powers authorities and functions (whether statutory or otherwise) of the Government Statist in relation to friendly societies as the Minister assigns to such person ; and such duties obligations rights powers authorities or functions performed or exercised by such person shall for all purposes have the same force and effect as if performed or exercised by the Government Statist.

By Authority : ALBERT J. MULLETT, Government Printer, Melbourne.
